

What makes **SuperFlow** superior?

Every producer is looking for:

- Less downtime from screen change outs
- Consistency in sizing
- Lowering their costs per ton

SuperFlow helps producers meet all three requirements.

Benefits of SuperFlow:

- Available in W, D, H, and T-Slot configurations
- Available .094" to 2.00" opg
- Custom made to match bucket/support bar spacing
- Excellent wear life vs. standard woven clean screens

With greater flexibility and longer life, SuperFlow screens handle damp and sticky material when other screen surfaces blind.

**GREATER
FLEXIBILITY**

**LONGER
LIFE**

**ACCURATE
SIZING**

Unified has one of the largest selections of opening styles available
